The board was advised no new racial profiling complaints were made. No update on the Attorney General's complaint from early 2014 was available.

The 2014 Taser use report was submitted to the board for review prior to public posting. Taser use since the last meeting was discussed.

The board discussed a number of potential name changes for the board, as well as other ideas. The board's desire is to change the name of the group to provide the public a better understanding of the board's function and existence. It was decided that the issue would be discussed again and any potential name change would be voted on by the board if a quorum was present. Once the name change is voted on, any request for change would be forwarded to the City Commission for review.

The next meeting is scheduled for March 9, 2015 at 7:00pm at the Investigations and Training Center, 4820 Bob Billings Parkway.
